How to order Maintenance Kit

All Special Springs nitrogen cylinders are permanently laser marked for easy and long lasting identification and traceability.

To order a maintenance kit, you are requested to communicate the **Man. Code**, generally marked on the bottom of the body, to your Special Springs supplier.

**HOW TO ORDER**

example: 39BMRV01000C

If the **Man. Code** is deteriored or is not readable, you are requested to communicate the **Serial Number** (it may start with **SN.... or bn....**) to your Special Springs supplier.

**HOW TO ORDER**

example: bn247813 or example: SN265726001
