To improve performances of nitrogen cylinders used in heavy contaminated environments, Special Springs, in addition to the famous SKUDO installed as standard on series KE, RS and MS, offers a complete range of secondary wipers.

These new secondary wipers, polyurethane made, are designed for a perfect fitting with many series of nitrogen cylinders. See tab below for technical data.

All secondary wipers can be ordered separately from the cylinders and assembled by user or, if requested with cylinder order, will be assembled at the factory by Special Springs.

**BENEFITS**
- Excellent protection from contaminants liquid and solid
- High performance polyurethane for best resistance to chemicals
- Prolonged lasting of guiding and dynamic seal
- Minimal loss of nominal stroke
- No limit of positioning of the cylinder
- Easy assembly
- Saving of money

---

**HOW TO ORDER**

E.g. How to order a gas spring with Secondary Wiper already installed

\[ \text{Identification letter for Secondary Wiper} \]

\[ = \text{RV 2400-63-A-W} \]

\[ = 59SW007 \]

E.g. How to order only the Secondary Wiper

\[ = 59SW007 \]
